

ORDER FORM

Untwist has been written for every child who has had to separate from their family and negotiate a new start in life.

The book provides a trauma informed care tool for carers and agencies tasked with helping them: A tool to help connect with young people, support them in making sense of their journey and discover ways to feel good again.

UNTWIST is designed to facilitate meaningful connection and communication with displaced children, especially adolescents aged 10-17 years.

Please complete this form and email to us at:
